Republicans Overseas Condemns Antisemitism Directed at Jews in Israel

TEL AVIV – February 22, 2024 – Republicans Overseas commends the board of Democrats Abroad Israel for taking the drastic step of resigning en masse to protest the rising antisemitism in the Democrat party. We also offer our belated condolences for the deaths of their family members at the hands of Hamas terrorists.

The Democrat party must address its antisemitism problem and should expel from Congress their antisemitic House members, including Representatives Ilhan Omar, Cori Bush, Alexandria Ocasio-Cortez, and Rashida Tlaib.

Republicans Overseas condemns antisemitism in all its forms and supports the right of Israel to uproot Palestinian, Iranian, and Islamist terror in Gaza and all its borders; to rescue its hostages; and to defend the Jewish People and the Judeo-Christian values that form the cornerstone of Western civilization.

Republicans Overseas urges all American citizens in Israel to register to vote at WWW.FVAP.GOV and to vote Republican in the general election. Contact Marc Zell for further information.
