## President Trump supports ending the double taxation of overseas Americans.

**WASHINGTON, D.C., October 2, 2024** – President Donald J. Trump has personally approved the policy of ending the double taxation of overseas Americans. Republicans Overseas worked with the Trump campaign to secure this historic policy statement.

“Republicans Overseas has been fighting for the rights of Americans abroad since its inception ten years ago,” said Solomon Yue, Vice Chairman and CEO of Republicans Overseas. “We have spoken to many politicians over the years, and while they sympathized with the burden of double taxation, very few have been willing to act. President Trump fights for the economic freedom of America’s working men and women, whether they live stateside or abroad.”

Republicans Overseas was founded in 2014 to keep overseas Republican voters politically informed and to direct their policy concerns to American political leaders and presidential candidates. Republicans Overseas has advocated for Americans abroad on their most pressing issue: ending double taxation. Overseas Americans should pay income tax in the countries where they live, work, and earn.

“Ending the double taxation of overseas Americans, a move that will be life-changing for millions, is a testament to President Trump’s commitment to economic freedom. We express our heartfelt gratitude to him for this significant step,” said Jim Gosart, Worldwide Executive Vice President of Republicans Overseas.
