### **Republicans Overseas Condemns the Democrats' Weaponization of the Justice System against President Trump**

SALEM, OR – March 30, 2023 – Republicans Overseas condemns the Democrats' weaponization of the United States' judicial system and calls on Democrats to cease their political persecution of President Trump.

The unjust lawsuit against President Trump in New York City, where a Soros-backed District Attorney has cobbled together a misdemeanor charge that is already past the statute of limitations with a federal crime already dismissed by the Department of Justice, is only one of the Democrats' anti-American attempts to “find a crime to hang on a person” rather than “finding the person who has done the crime”.

Solomon Yue, CEO of Republicans Overseas, states, “BeijingBiden has weaponized our legal system to target his primary political opponent, President Trump. The Soros-funded Manhattan District Attorney, Alvin Bragg, is following in Putin's footsteps and seeking to do to President Trump what Putin did to Aleksei Navalny, a prominent Russian opposition figure. Navalny was unlawfully detained and has been imprisoned for 11 years and six months. This is unacceptable and must be forcefully condemned.”

While crime has rapidly risen in Democrat-run cities, including a 22% increase in major crimes in New York City (where District Attorney Bragg reduced 52% of all felonies to misdemeanors), and while the exodus from these Democrat hellholes continues at record levels, Democrat politicians weaken laws, allow theft, release violent criminal suspects back onto the

streets, demoralize and punish the police, and focus their legal efforts on prosecuting their political opponents.

Democrats must cease behaving like communist autocrats who jail their opponents, reject their radical politicians, and call for a restoration of true justice and an end to the censorship, intimidation, and legal targeting of their fellow countrymen and women.

Republican politicians must refuse to work with any Democrat supporting the persecution of American citizens and denounce the political and legal witch hunts of Republican officials.
