

**Please include Territorial Taxation for Individuals (TTFI) in the Tax Reform Package!**

- TTFI would end the discriminatory double-taxation of overseas Americans.
- TTFI would be tax-revenue positive since it would eliminate a loophole that exempts wealthy non-resident foreigners from having to pay taxes on substantial real estate investments in the US.
- TTFI would increase the hiring of Americans overseas as it would eliminate the 35% extra cost attached to Americans as a result of double taxation and compliance costs.
- TTFI would allow for an increase of American exports. More overseas Americans will lead to more promotion of American products and more exports.
- TTFI would attract skilled immigrants to the United States by eliminating double taxation on their overseas income.
- TTFI would end the discriminatory costs of tax compliance for overseas Americans.
